Excellent Audio. Supreme Comfort. Elegant Styling

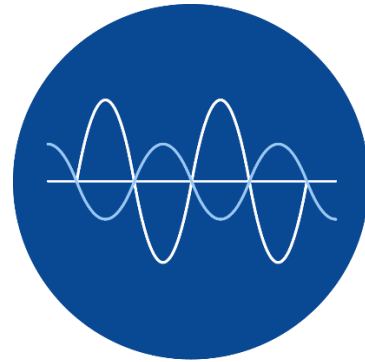

The Audio Session's Debut headphones highlight our philosophy of superb sound without compromise.

50mm Titanium Drivers

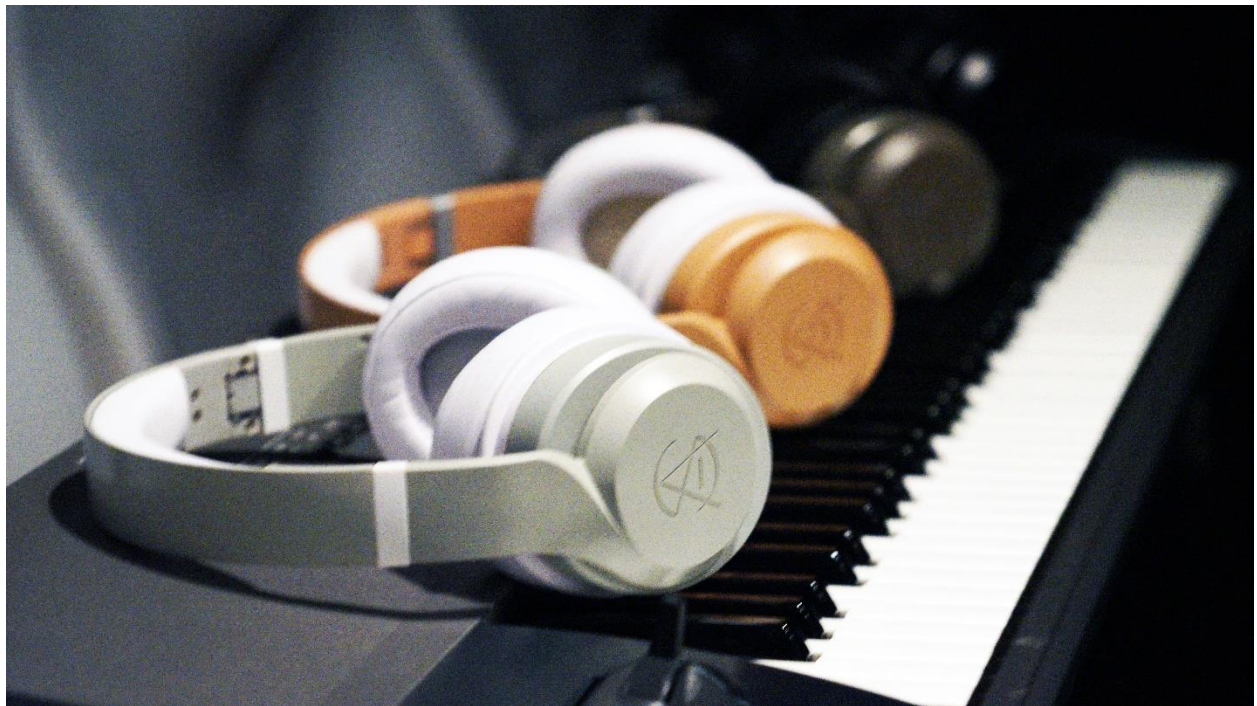

Memory Foam Ear Cushions

Stylish & Powerful

50mm Titanium Drivers

Specifically chosen for their incredible strength-to-weight ratio, we apply a thin coating of titanium to our Mylar drivers to guarantee that the diaphragm is light and precise enough to resonate clear, high-fidelity sound across the spectrum.

Memory Foam Ear Cushions

What's a great-sounding headphone without an equally fantastic wearing experience? Our plush, memory foam ear cushions ensure that you remain ultra-comfortable while keeping the headphones firmly secured.

Modern Color and Design Philosophy

The Debut features contemporary design, utilizing subdued but aesthetically-pleasing colors and styling to match its equally superb audio qualities.

Who Are We?

From humble beginnings as a Hong Kong-based company, the members of The Audio Session have been involved in the design and development of personal audio equipment with major industry leaders around the world for over 30 years.

The Debut represents our initial foray into the professional audio sphere as an independent brand, showcasing our decades of audio expertise and highlighting the best in both headphone and sound design.
