

## [MyAudioSession receives Red Dot Design Award 2018](#)

*April 9, 2018.*

The Red Dot jury has made its decision: After all of the products submitted were tested and assessed individually in the course of an evaluation process spanning several days, **MyAudioSession**, manufactured and designed by **The Audio Session Company Ltd**, received the “**Red Dot**” distinction. The panel of experts awards the internationally recognised seal of quality only to products that win them over with their high design quality.

### **The World’s Most Personalized Music Experience**

**MyAudioSession** is an innovative wireless headphone created to provide an enhanced audio experience through an in-app hearing test. In contrast with normal music equalizers, MyAudioSession’s hearing calibration system is designed to evaluate an individual’s unique hearing and apply a custom-tailored personal profile for their ears.

Combined with smart pairing, wireless charging, high definition audio, and up to 30 hours playtime, this headphone-and-app duo offers a complete, wireless audio experience.

### **About The Audio Session Company Ltd**

From humble beginnings as a Hong Kong-based company, the members of The Audio Session have been involved in the design and development of personal audio equipment with major industry leaders around the world for over 30 years.

Launched in 2017, The Audio Session brand was created with the purpose of providing an exceptional listening experience with thoughtfully-crafted and expertly-engineered headphones.

The latest project, **MyAudioSession**, aims to unite decades of audio expertise with innovative sound-personalization technology to create an acoustically superior headphone that can enrich the user’s enjoyment of music.

## **Evaluation platform for good design**

**The Red Dot Award: Product Design** has roots dating back as far as 1955 and determines the best products created each year. In 2018, designers and manufacturers from 59 countries submitted more than 6,300 objects to the competition. True to the motto "In search of good design and innovation", a jury comprising roughly 40 members assessed the products individually based on the original. The strict judging criteria, which include level of innovation, functionality, formal quality, ergonomics and durability, provide a frame of reference which the jurors then complement with their own expertise.

A choice of three different distinctions are awarded: The Red Dot: Best of the Best is reserved for the best products in a category, while the Red Dot is the distinction for high design quality. An Honourable Mention is awarded for a particularly well-executed aspect of design work.

"I want to congratulate the award winners sincerely on their wonderful success in the Red Dot Award: Product Design 2018. Success in the competition is proof of the good design quality of the products and once again shows that companies are on the right path. When I speak about good design, I am referring to more than just an attractive product. All of the products are characterised by outstanding functionality. This demonstrates that the designers have understood their clients and their needs", said Professor Dr. Peter Zec, founder and CEO of the Red Dot Award.

## **Celebration to honour the laureates**

The winners will be celebrated at the Red Dot Gala on 9 July 2018. The Red Dot: Best of the Best laureates will receive their well-deserved trophies on stage at Essen's opera house, the Aalto-Theater, during the award ceremony. At the subsequent Designers' Night in the Red Dot Design Museum Essen, the Red Dot laureates receive their certificates and can all celebrate their success together in the midst of the award-winning products, as the aftershow party is simultaneously the exhibition launch: For a four-week period, the special exhibition "Design on Stage – Winners Red Dot Award: Product Design 2018" will feature the award-winning innovations as part of the world's largest exhibition of contemporary design.

The day of the Red Dot Gala coincides with the publication of the Red Dot Design Yearbook 2018/2019, which showcases all of the year's winning products. In addition, they can be found in the Online Exhibition, the Red Dot App and on Red Dot 21 from that date.

## **About the Red Dot Design Award:**

In order to appraise the diversity in the field of design in a professional manner, the Red Dot Design Award breaks down into the three disciplines of Red Dot Award: Product Design, Red Dot Award: Communication Design and Red Dot Award: Design Concept. The Red Dot Award is one of the world's largest design competitions. In 1955, a jury convened for the first time to assess the best designs of the day. In the 1990s, Red Dot CEO Professor Dr. Peter Zec developed the name and brand of the award. Ever since, the sought-after Red Dot award has been the revered international seal of outstanding design quality. Further information available at [www.red-dot.de](http://www.red-dot.de).
